Chapter-1: All that left with us.

They were roaming around in the forest finding lominges berries for lunch. It was a tall forest but could not prevent the sunlight to filter the lands there

There was a place covered so much with trees and plants that big vorns could hide easily and hunt.

Sparkyle was there roaming forest with Leafily (His 'sis') and his little brother Vonn. Sparkyle was 24 years old, Leafily was 11 months younger and Vonn was 7 years old.

Vonn was sitting on back of Sparkyle and gripping his forehead.

“Well... why are we here again? This forest is new to me.”

“Also to me!” Said Sparkyle while finding berries.

“I heard that you can find plenty of lominges berries here with ormalic berries though the ormalic berries are rare here.”

“MR. Encyclopedia, can you just please find berries than chit-chatting?” Said Leafily, trying to make a breeze in there, as it was hot there. Even after trying, she could not make the breeze because she was not that Von.

Sparkyle sighed, looked around, and said, “Why are you saying me an encyclopedia? I’m just telling you a basic fact.”

“Okay...” Said Leafily in a bored voice.

A bigger von said in low voice, “You fools.”

“DON’T DARE!” shouted Sparkyle, charged at him and shocked him with electricity, sending the creature away in the darkness.

“Phew...Argh! This scratch...argh!” Shouted Sparkyle.

“We could have just ran. Now let us go home or pain will increase.” Said leafily in a calming voice.

“W-w-what w-was -t-t-t-that?” Said Vonn in a scared voice. He seemed to be more than scared-TERRIFIED!

“We’ll tell you at home...don’t be scared!” Calmed Sparkyle

They went home...

At home, Leafily bandaged her big bro’s scratch on his ears.

Sparkyle said as if he noticed something. “So the scratch is on my ears? Now I know why I can’t hear from this ear right now!”

Vonne came into the hall. She was Vonn’s 1-year younger sister and both were DEAREST to each other. They understood each other more than anyone did.

Vonne giggled. Sparkyle said, smiling. “Early, huh?”

Vonne giggled. “Yup!”

She jumped and hugged him, poking her head in his ruff.

Sparkyle looked down, smiled, looked at Leafily, and said to Vonne, “Did you notice Vonn.”

“Nope!” said Vonne and went on to find him.

She was at entrance when she was going to crash to Vonn.

“HEY! Do not speed up to find me only!”

“Okay! Now let’s play!” Said Vonne impatiently yet excitedly.

They went outside to play, specifically VON and the lominges berry.

After a while, Vonn noticed something horrifying... An injured female VON from water mystic sub-species. She was really injured and unable to move.

“W-who are y-you!” Said Vonn in a shaky voice.

“H-h-help...” The female VON said and fainted.

“Big Bro!” Shouted Vonn, trying to lift her on his back. He was able to do it somehow.

He came at entrance and Sparkyle saw it. He shouted to Leafily for aiding her.

After a while...

“Thanks!” Said that female VON (Tulip), kind of nervous so blushing.

“It’s okay but wait...Stay still...” Said Vonn and started synchronizing brains.

“You’re 5 years old! You’re younger than Vonne!” Giggled Vonn.

“HEY!” Shouted Tulip.

Vonn frowned. “And...And...Y-you don’t have a family?”

“Yep” said Tulip in a sad mood

“You can stay with us for a few days or even forever...If you wanna...”

Said Sparkyle, trying to contribute to her.

“EYA! Okay!”

Moreover, another pack member and a family member had joined.

They ate those leftover lominges berries (Still plenty for dinner) and slept in a cozy room where they slept as always.

The next day...

“Yaaaaaaa!” Yawned Tulip. She got up and saw that Sparkyle was not there.

“I think big bro is awake” She whispered to herself and went out to see the Brosrise. It was beautiful!

According to the current observations done by the group of one electric mystic VON, fire mystic VON and leafy mystic VON and many of water mystic VONS (soldiers) named Hallmarket observation team. They found out by the cordinal output observation (Way to connect a mind

with a star and find its information such as age) that 23c Bros (Their sun) was 236 trillion years old and in a 56 billion years, would stop shining. It would be replaced by another Bros named 354d Bros which would be a millimeter larger than the current 23c Bros.

“How beautiful!” Shouted Tulip.

By then, Leafily had woken up and Vonn and Vonne were still sleeping.

“I’m back!” Said Sparkyle, carrying many Lominges berries.

He was carrying it in a leaf made bag Leafily made when they were children.

Of course, it was not perfect that time but now, It was perfect enough to carry a thousand Lominges berries. Lominges berries were half the size of blueberries and were just as same as

Blueberries but had a swirly symbol and contain all nutrients ever needed.

“I’ve gotten as much as 200 to 350 berries. Let’s have them in breakfast...And why did I say that when that is the only choice?” Said Sparkyle, Looking around.

“Why are asking me, Big bro” Said Leafily.

“That is also a question... Now before a questioning parody begins, we should have a meal.”

“Well, big bro, were you a member of Hallmarket observation team?” Said Vonne, intrigued to learn more.

“Yes I was before not now but I can tell you facts if you guys wanna know!” Said Sparkyle hoping for a ‘yes.’

“Yup” Said Tulip also intrigued to learn more just like Vonne.

“Okay so it is like the Hallmarket Observation team or H.O.T in short, observes about our world and this universe. It has discovered many integral facts about our UNIVERSE. Our UNIVERSE is 1.29 Octillion years old or you can say 1,290,000,000,000,000 Trillion years old and that is a shocking number. In addition, our 23c Bros is 236 trillion years old and be replaced by 354d Bros after a billion years. Moreover, 23c Bros is going to stop shining in a billion years and that is why would be replaced by the 354d Bros.” Said Sparkyle and got kind-of exhausted from saying this much without stopping.

“A 1, 290,000-WHAT?” Said Vonn, grasping in disbelief.

“I thought that our universe was only a few trillion years old. It turned out to

be an old guy!” Said Vonn in a shock, but giggled also as soon as he finished saying.

“Yeah, yeah, now we should hang out this time. Weather is good and cool outside.

Therefore, they went out for a walk...

While walking in the forest, they found out something...

The Darkness Arises.

They found out a new berry they had never seen and a rock carved with a swirly symbol and a cross on it.

“That is totally strange. A new berry? That does not seem to be right and this rock also does not seem to be right.” Said Sparkyle in confusion. He took out and calces (A gadget made of

wood and had two dorissters in it and a matalligular stick on top (used to sense danger.))

It beeped 3 times meaning something was off with those things.

“I know the danger, if any is...” Said Tulip, sensing.

“Okay...Just get it right.” Said Leafily, knowing it was danger by Sparkyle’s movement.

“It is of a big monster like VON named REATATE and has created a virus named the REATATE Virus. The virus is so powerful that one infected with it will be gone forever in a day or so. This I think is the symbol that shows that we are near the place where many infected ones reside. Possibilities are that REATATE is residing there for now. He was the one who hurt me and I came running, tripped over a bush and fell and that is when I met all

you guys!” Said Tulip and grasped for air.

“That was as big as a lore.” Said Sparkyle, Grabbed all and sped out of the forest as fast as the occurrence of a lightening.

What they saw was that they were at a plateau and saw a town near them.

“Whoa!” Shouted Vonn in amazement.

“So big” Shouted Vonne, amazed too.

“Sure it is! Now let us go and help the infected ones,” Said Leafily.

“She is right! Now let us speed up and reach there in seconds!” Said Sparkyle, Grabbed their paws and sped up fast and were almost flying when they falling but, balanced their paws and landed safely.

“That was a close call!” Grasped Leafily.

“Now let us go!” Said Sparkyle.

Again, he grabbed them, sped towards the town, and reached there in 0.99 seconds.

“Let us do it fast!” Said Sparkyle.

He walked carefully with others, his ears Twitching continuously.

“Let us enter this cave tunnel and see if we find the Cause!” Said Sparkyle, exited but cautious enough to lead them through the cave tunnel safely.

“and which cause you mean, bro?” said Leafily and then Giggled.

“REATATE virus of course!” shouted Sparkyle. They went inside...

Inside the cave tunnel...

“W-w-what I-is t-this p-place,” said both Vonn and Vonne.

“A cave tunnel, though... WAIT!
WHAT ARE THOSE!” shouted
Sparkyle, loud enough to reach a mile.

They sprinted there as they had
found... abandoned eggs

“They did not make it,” said Leafily, in
sorrow.

“Oh VON!” said Sparkyle.

They went forward and forward.

“Hey, what is this smell? Seems uh”
Said Vonn, confused.

“Quick, cover you mouths! It is
ornifated Lemiun dronxide! It is
extremely dangerous! 3breath can
make a VON gone forever!” Shouted
Leafily.

Everyone there (only them) covered
their mouths.

Suddenly, a reatatic infect came and
attacked on Leafily.

“AHHHH!” She screamed. She tried to hit it but then realized that she did not have ability to attack.

“Uhm... HELP ME!!!!!!!!!!!!!!” screamed Leafily, her leg bitten by the Reatatic Infect.

Sparkyle froze for a moment, was his eyes brightening from normal to glowing blue, and shot a blue electric ball at the Reatatic infect and it was squashed like a pancake (☺).

Sparkyle and others ran towards Leafily, whose leg was still SEVERELY injured

“OH NO! what do we do?”

Tulip said, acting like a scientist, “I know what to do! Is there any blossso berry?”

“lemme feed Big sis!!” Vonn said holding the blossso berry.

“NO Vonn! Squash it and apply on leg!” said Tulip
Sparkyle took the Blossso berry,

squashed it, and applied it on Leafily's leg

"thanks...", said Leafily in a low voice

"It's okay! It's our duty to help family... and others!" said Sparkyle they walked, and then Sparkyle (or SP in short) said, "hey tulip, do you know the inventor of Calces is someone in here with us! Guess who!

"wa! Really! Let me guess... you!"

said Tulip, ready for the YES but instead, came a no!

"nah! It is Vonn! I know he does not have a company to make it but those nasty laws does not allow em! Like they need me to be the founder so he the real 'should-be' founder and inventor would not be able to be!

Therefore, I did not make a company!

I am not greedy like others! In

addition, NOT a fool like the

lawmakers! Who do not let him be a

founder because he does not have the

capability to bind contracts or do financial things! Like can't the law maker make an law so the young one is founder with vision and legal binder and financial manager is the parents, or an adult brother or sister like me or Leafily? That is why I hate the nasty laws!"

"I 100% Agree with this statement!" said Leafily, in a serious mood.

"why did we stop moving in the first moving in the first place?" said SP, confused in humor.

"Why are you asking me big bro?" Said Vonn, also confused in humor

"ah never mind! I was going to start a questioning Parody myself! Heh..." Said SP, out of the confusing humor.

"let us continue exploring!" said Leafily, her leg healed by 99.99% so continued walking

On H.O.T's side

“Oh no! a maliculos metrious is coming! We must inform the VONSs to hide! Alarm!” shouted a co-worker of H.O.T named Eelisan
another worker shouted “the a maliculos metrious has so much sharded constips that the whole H.O.T headquarter and al the land below till the core would be cleanly demolished into ashes! ALARM!
everyone panicked, pressed the alarm button and started getting out their way, pushing each other to save their lives

Back to Vonne family's side

“ting tring! H.O.T ALARM SET OF!
AN MALICUOS METRIOUS HAS ARRIVED ON THE VONS WORLD!
SEEK SHELTER! ESTIMATED TO COME AND DEMOLISH THE H.O.T HEADQUARTERS AND GO TILL THE CORE BEFORE STOPPING

THE RADIATION WILL BE TILL
THE ESTAMINAS CAVES,
DESTROYING SOME OF THOSE!”
shouted an H.O.T walmarkec watch SP
had because before he was from
H.O.T!

“oh nothing to worry about! It is not
even close to us! We live farther than
Estaminas caves!” said SP calmly

CHAPTER 3:

THE ‘GOODBYE...’

the goodbye undeserved...

They reached out of cave, to find a
landscape with black bad sticky
substance.

“IT IS OF **REATATE!**” shouted Tulip

“quick! Hide” said Leafily when she heard some movement steps. they hid under a broken and torn contrigutive lamman couch (contrigutive lamman is a company in VONS world that makes couches and sofas much better than humans could).

The Calces started beeping like six times

“oh no! no! wait... like the laws do not allow him to be founder but we will fight that, we do not need to hide here all day... just let him out! I am going to distract him! You people just go deeper and explore to get some cause of REATATE virus that is even if a minor part, a PART! Go go go!” said SP in a low pitch

“Leafily, I do not know if I will return so if I don’t, remember me and take care of em all time!” said SP, being emotional.

“But big bro! you should not go! You are most important part of the family! Our survival and bonds cannot stay without you being with us!” said Leafily, about to cry

“I guess I will return, not sure, that is why I am saying this,” said SP, ready as his eyes were glowing again for a charge towards REATATE.

“Okay...” said Leafily, in a whisper pitch that was barely hearable.

SP got out, ran towards REATATE, and charged him with an electric shock of blue

“Arghhhhhh! Who was that! You loser! You thought you could defeat me! Now be ready to be gone!” shouted REATATE, ready to beat SP a lot

“Not yet! Come on, you wanted to fight! Go on and fight with ME!” said SP in a teasing voice.

“Okay then, let us FIGHT! 3...2...,” just as REATATE said this, SP charged at him with blue majes charge, a deadly charge that could make any normal VONS gone in one shot. REATATE’s hand was cut off due to this. However, he healed like nothing happened.

“So you’re having strength, huh? Be ready!” shouted REATATE, overconfident on defeating him. SP let out another majes blue charge, but REATATE threw a handgorman strike at him, dealing SP a massive damage

“ahh! It is okay!” said SP, and threw a handsman elecstrike at REATATE, dealing him moderate damage.

“huh! You’re pretty weak!” said REATATE about to attack him again with another handgorman strike.

Commented [A1]:

Commented [A2R1]:

At the Vonne family's side

“I do not know what is going on with big bro, but i am sure he is fine,” said Leafily, trying to nature sync with SP to know his health

“it beeped! There is some core nearby as it beeps and glows yellow LEC or what we say light emmiting cansit! Which means that there is some suspicious non-danger object nearby, which i think is closely at most, a Virus core! So follow me closely!” said Vonn in one breath, tired of all this

“As much as i know, there are approximately 4 cores, one inside REATATE himself! We must find other 3!” said Tulip, also in one breath, also like Vonn tired of all this
“I know one of the cores are guarded!” said Vonne

“wait a second! Vonne, how did you know this! I did not know!” said Vonn in shock.

“I just got to know as i through a narrow space saw that an REATATE infect much stronger than normal ones in look was guarding something orbical cube, the same shape Tulip told me yesterday becuase we did not sleep that night!” said Vonne, knowing that she would get scoldings of not sleeping that night.

“It’s okay on the basis that you were sacred so was Tulip! It is normal! For a night, please big sis do not scold em! PLEEEEAASS!” said Vonn

“Okay, but for today,” said Leafily, partially synchronizing with SP

“Thank you big bro!” said both Vonne and Tulip, about to hug him in HAPPINESS.

“Not the time... let us continue! And please do not shout anyone,” Said

Vonn, even more cautious than he had ever been.
they entered the room with narrow part of which Vonne talked about.
the guard was sleeping.
they touched the core. It was lava hot
“OUCH! Ooh sorry...” said Vonn, who awakened the guard
“aaaaaaaaaaaaaaaaaaaaarrrrrrrrrggg
gggghhhhhh!!!!!!” shouted the guard
and lunged towards Vonne as he spotted her first
everyone except Tulip and Vonn paused.
“let us do it!” both said to each other
Tulip jumped and stretched the ears of the guard, and then Vonn attacked the guard with sleep water sprinkles, which put the guard to sleep again
“phew! Now let us break it!” said Vonn, grabbed the lava hot orbical cube (virus core) and threw it on ground. It broke into pieces, the virus

became weaker, and the guard became a normal VONS.

“what happened to me? Who are you guys” said the healed VONS, and got back to sleep, as it seemed to like sleeping.

“Phew! Thank you Vonn,” said both Leafily and Vonne

“It is okay big sis and Vonne,” said both Tulip and Vonn
they continued searching more

At SP's side

“arghh, this is going bad!” said SP, severely damaged with scratches.

“see! You are nothing compared to me!” said REATATE, even more overconfident on defeating SP
SP led out an angry shout and led a ‘blue majestile mocker’s strike of elec’ at REATATE, which moderate-high – ly damaged REATATE.

“Arghhhhhh! Let us see what you get by hitting me with the whatever ‘blue majestile mocker’s strike of elec’ thing!” said REATATE, hundred percent Mockingly.

At the Vonne family’s side

“so i just noticed that there is another narrow path... with no Guard? It will be easy!” Said Vonne, ready to get inside

“what you see is a lie what you do not see is the truth!” Said Vonn, reminding that REATATE would not be a fool not guarding his virus cores.

“yep he is right on the total spot!” said Tulip, peeking inside, expecting an hiding Guard

as she looked up, an creature suddenly, dropped on her face, clutching it as tight as it could

“ahhhhhhhhhhhhhhhhhhhhh! My

head!” screamed Tulip
Vonn grabbed it, gave it a few young
punches and threw it away, assuming it
was gone.
“Thank you... my head still hurts...”
said Tulip.
“It is okay! Be brave! Be a brave
female VONS!” said Vonn in a
pampering voice
“I finally synced with SP... ahh! He is
in max pain he could be! His electric
glands are overwhelmed! No! it cannot
happen! He is really a savior! Fast! We
must get all of them of so we can
reach! FAST!” shouted leafily in pain
and peak emotions
everyone ran, broke the Virus core by
throwing it, and ran out. Though they
squeezed through the narrow passage,
“next one we must find! FAST!” said
Vonn and Vonne
they all were running randomly and
Tulip noticed another narrow passage,

longer than before.

“squeeze through it! FAST!” said

Tulip

they all did the same as Tulip said

“Vonne, wait here, we are back as it is

highly dangerous! Even though Tulip

is younger than you, she is more

adapted than you to this so wait

and tulip, stay near the passage when

we come out the other side of this!

INITIATE!” said Vonn in a leader’s

high pitch voice like he was

commanding troops for battle (👁️)

Vonne wait from the first passage,

while Tulip kept an eye from the

second. Vonn and Leafily went on to

find the other Virus core

they found another passage

“Big sis, this one is even narrower...

you cannot even squeeze through it. I

am going inside! You stay here and

keep an eye! If help needed, either go

to Tulip or shout to me or if you can,

squeeze through the passage,” said Vonn and even before Leafily would mutter a word, he went of the narrow path

“oh VON! This is unsafe now! Lemme go to Tulip! Or stay here and look out for Vonn” said Leafily, kind of scared.

on Vonne’s side

“I am feeling scared now! This is getting creepier standing here! I do not even have any courage to look behind,” said Vonne to herself, even more scared than she thought she would be.

“however, as big bro Vonn said to be brave, lemme check out about any danger,” said Vonne, looked back, saw no one, and turned around again but through the passage, she saw an REATATE infect was coming

“Oh no I’m danger! I do not even have ability to fight just like big sis! Oh

VON!” said Vonne
but as she looked again, it was gone
and when she turned back, she saw it
barely a centimeter away, ready to
make her gone forever
“NOOOOOOO!” Vonne screamed
but as soon as she opened her eyes, she
saw that it was gone and pulling it’s
ears were none other than Vonn
himself
“ohh! Thanks big bro!” before now
Vonn could mutter, she hugged him so
tight he was not able to move
“It’s okay! By the way, you have good
sense of look out! moreover, you have
become braver than before! I know
you cannot attack! GOOD!” said
Vonn, praising Vonne for her upgrade
“thanks... we may continue... by the
way the REATATE infect came from
the passage so i have a doubt about
how are big sis and Tulip...,” said
Vonne in doubt.

“let us go! They are safe as i said them to go to big bro while i would handle you so fast! Let us go!” said Vonn in a fast voice

they ran and ran and ran until they reached the place where they found the first virus core.

they stopped, looked around to sense danger, sensed nothing (NOTHING) and ran more until they reached there...

the place of SP vs. REATATE.

both were damaged

the virus was failing to survive more Leafily healed all and mostly to SP, more than he needed

SP, overcharged with energy and anger, transformed into his temporary anger form (in which he could defeat an whole stack of 100 VONS attacking same time without a sweat or scratch).

He blasted hyperelechands continuously on REATATE, who was defending himself. While defending he

blasted a canon gormantic towards Vonne.

“NOOOOOOO!” she screamed, ready to be gone forever.

Then Vonn came in between clutching his calces as tight as he could, and took the deadly shot

“Please remember me... Bye world”

“NO! not you! Big bro! wake up!

NOOO!” screamed Vonne in disbelief, crying so loud that even REATATE noticed and whispered, “huh, silly!”

Then in everyone’s ears (except of REATATE) a whisper was there

“I, Vonn, am still there,” it said

suddenly, the Calces Vonn clutched before being out of body started

levitating. Its Dorissters were heating up and then that thing (impossibly)

blasted a hyperwaterball 20x stronger than a normal one.

REATATE was damaged
everyone, together, said, “NO ONE
CAN CHANGE THE VISION OF
ANY YOUNG!”
“NO! this cannot happen!
ARGHHHHHH!” screamed
REATATE in pain.
“and an elecblast!” shouted SP, shot a
hyperelecblast at REATATE, ending
him for GOOD.
“AAAAAAAARRRRRRRRGGGGGH
HHHHHH!” shouted REATATE, and
became gone forever.
a radiation (harmless) came from him
and wiped every REATATE infect
who were there and heading towards
Vonne family...

EPILOGUE

“Why!” cried both Vonne and Tulip.

“It happens! Remember what Vonn said

He is with us all the time!” said SP, comforting them both.

suddenly, another whisper said in Vonne’s and Tulip’s Ears

“I always am there” it said

“Vonn!!!!!!” both said in happiness, knowing he was with them, no matter all

SALUTE TO THE INVENTOR
VONN FOR BEING THERE FOR
HIS FAMILY IN TOUGH PARTS,
JUST LIKE SP!

THE END

AUTHOR'S BIO
